

$$\Sigma_{\mathcal{C}} = \prod_{\langle ij \rangle \in \mathcal{C}} \sigma_i^{\alpha_{ij}} \sigma_j^{\alpha_{ij}}$$

A diagram showing a black arc connecting two points. The left point is labeled $\sigma_1^{\mu_1}$ and the right point is labeled $\sigma_2^{\mu_2}$. The arc is slightly wavy and positioned below the product formula.

$$\prod_{\langle ij \rangle \in \mathcal{C}} \hat{u}_{ij}$$

A diagram showing a purple arc connecting two red dots. The left dot is labeled $b_1^{\mu_1}$ and the right dot is labeled $b_2^{\mu_2}$. The arc is slightly wavy and positioned below the product formula.
